EAFF JUNIOR CAMP

Junior Camp is a flagship EAFF event. Since 5 years we are inviting children with one-side amputations or limb defects (5-16 years old with) from Europe and other continents and we are creating for them equal opportunity to play football, speak universal language of sport and develop new skills. It is also the chance for coaches to exchange knowledge and inspire others to create more programs after the camp is over and for the parents to have stronger bond with their kids.

EAFF JUNIOR CAMP

The camp lasts 5 days, of which 3 days on the pitch: trainings, matches. The kids are divided into age groups. There are two trainings a day. Besides trainings we conduct workshops for parents and coaches. Additionally, there are integration activities between coaches, parents and participants and activities allowing participant to get to know the culture of hosting country.
